

Gerber ImageCal P

Feature	Benefit
<p>Edge READY™</p> <p>Manufactured and converted by Gerber for use with GerberColor™ Foils and the GERBER EDGE®.</p>	<ul style="list-style-type: none"> Optimal printing results means less wasted material and greater profits. Superior finished product translates into repeat business.
Precision punched.	<ul style="list-style-type: none"> Precise punch pattern provides outstanding print registration with the EDGE and perfect tracking through Gerber plotters. This means less wasted material, greater productivity and increased profits.
Polymeric Calendered Vinyl	<ul style="list-style-type: none"> High-quality, calendered construction is more stable than monomeric calendered vinyls. ImageCal's quality means a better finished product and that leads to repeat business.
Clear vinyl and adhesive	<ul style="list-style-type: none"> Allows the EDGE owner to create window graphics, second surface displays etc Graphic takes on the background color of its substrate.
4 to 5 mil	<ul style="list-style-type: none"> Application tape may not be required when transferring small ImageCal "P" graphics. Eliminating that step from the application process will save time and money.

Gerber ImageCal "P" is suitable for use in interior and short-term exterior signs, decals, second-surface applications, point-of-purchase, and window displays.
