

LexEdge II™

Feature	Benefit
EDGE READY™ Manufactured and converted by Gerber for use with GerberColor™ Foils and the GERBER EDGE®.	<ul style="list-style-type: none"> ◆ Print coating provides optimal printing results. Less wasted material and greater profits. Superior finished product translates into repeat business.
Can be cut with 15" GRAPHIX ADVANTAGE® or OMEGA compatible Gerber Plotters	<ul style="list-style-type: none"> ◆ Contour cut around EDGE printed graphics to create unique shapes for customers. Adds value to the finished product and will lead to greater profits. ◆ Cut shapes out of a graphic to create membrane switches and keyboard overlays - two highly profitable markets opportunities. Eliminates the need for die cutting. No need to wait for a custom die to be manufactured.
Reverse printable	<ul style="list-style-type: none"> ◆ Create second-surface designs. Leads to greater longevity. Adds value to the finished product.
Polished Lexan® print surface	<ul style="list-style-type: none"> ◆ Even small text can be printed on LexEdge II. This means that the EDGE owner has the ability to meet more customer requests and their designs do not have to be limited by minimum stroke width concerns.

LexEdge II provides the EDGE owner with the opportunity to print on a Lexan semi-rigid substrate. LexEdge II is perfect for making keyboard overlays, switch plate membranes, architectural signs, and display work.

NUMBER OF COLORS	1 (velvet/polished Lexan® 8A35, clear)
PERFORMANCE LIFE (UNPRINTED)	Interior applications
MINIMUM APPLICATION TEMP	n/a
